

Silent blocks are standardly made of NR/SBR rubber with a hardness of 70 ±5 Shore.

Operating temperature range from -20°C to 80°C.

These silent blocks are designed for pressure loads (axial load downwards). They are not intended for tensile or shear loads (axially upwards or radially upwards).

**In case the product is not in stock in sufficient quantities, its delivery time can be up to 120 days.**
