

The perforated hose clamp has a thread formed by holes in the strip.

A clamp with a strip width of 12 mm has a destructive tightening torque of up to 15 Nm, which is approximately 3 times more than classic W1 hose clamps, which have a thread pressed into the strip.

The more durable the hose, the greater the tightening torque we can use.

Soft hoses cause the clamp to jump when tightened - the strip bends into the pliable material.

The clamping ranges of the clamp are from 6 to 76 mm in diameter.

An endless strip is designed for larger clamping ranges.

- **Material:** stainless chrome-nickel steel

Selected variant

Product name	Perforated clips W4
Product code	0
width	12
Diameter (mm)	27-51

Variants

Product name	Product code	QTY	width	Diameter (mm)
Perforated clips W4	00199	1	8	6-16
Perforated clips W4	00200	8	8	11-20
Perforated clips W4	00201	0	8	13-25
Perforated clips W4	00203	36	12	21-38
Perforated clips W4	00202	0	12	14-27
Perforated clips W4	00204	0	12	27-51
Perforated clips W4	00205	0	12	40-63
Perforated clips W4	00206	0	12	52-76
