

Plastic connectors are a great solution for connecting profiles.

A big advantage is that it is not necessary to weld the profiles in a difficult way.

The connection of the profiles is characterized by high strength and a compact appearance.

The steel core in the plastic connector significantly strengthens the connection of the profiles.

Selected variant

Product name	Round profile connectors, black
Product code	27519
Height H (mm)	45
Wall thickness T (mm)	4
Steel reinforcement	+
Diameter D (mm)	60
Center S (mm)	5
