

Plastic connectors are a great solution for connecting profiles.

A big advantage is that it is not necessary to weld the profiles extensively.

The connection of the profiles is characterized by high strength and a compact appearance.

The steel core in the plastic connector significantly strengthens the profile connection.

Selected variant

Product name	Square profile connectors, black
Product code	27482
Steel reinforcement	+
Side A (mm)	20
Center S (mm)	5
Wall thickness T (mm)	1,5
Height H (mm)	45
