

The cable gland with a nut with a metric thread fastening type is an essential element for safe and efficient cable routing in various applications. Polyamide (PA) provides excellent resistance to mechanical stress, chemicals and temperature fluctuations.

The gland ensures a firm and tight fit of the cables, which minimizes the risk of damage and increases the reliability of the entire system.

Thanks to the metric thread, installation is quick and easy. Ideal for use in industrial, electrical and electronic installations where durability and safety are important.

- **Material:** PA 6.6
- **Insulation protection:** IP 68
- **Color:** gray
- Also available in black

Selected variant

Product name	Metric glands, with nut, PA, gray
Product code	0
Color	šedá
Diameter (mm)	M20
range	6,0-12,0
Thread length (mm)	15
