

Clamp Solid with pipe connection thread for fastening heavy pipes. In combination with a rod with pipe thread and a corresponding holder, it is possible to create a fixed point that can be anchored directly to the ceiling, wall, floor or mounting beam.

The clamp with the M12 (M16) fastening head is designed for fastening heavy, steel or cast iron pipes.

Variants with the 1/2, 3/4, 1, 5/4 fastening head can also be supplied.

With a damping rubber insert.

- **Surface finish:** galvanized steel

Selected variant

Product name	Solid sleeve
Product code	0
Clamping range (mm)	72-78
Tape width (mm)	30
Thread	M12,M20
