

Plastic connectors are a great solution for connecting profiles

A big advantage is that it is not necessary to weld the profiles in a laborious manner.

Articulated connectors have a wide range of applications. They are used where different angles are needed when connecting aluminum profiles.

Selected variant

Product name	Joint jack connector, "L", black
Product code	27438
Steel reinforcement	-
Angle U	45° - 195°
Steel type	čtverec
Side A (mm)	25
Wall thickness T (mm)	1,5
Height H (mm)	38
Diameter D (mm)	-
