

Masiv clamp with pipe connection thread for fastening heavy pipes. In combination with a rod with pipe thread and a corresponding clamp, a fixed point can be created that can be anchored directly to the ceiling, wall, floor or mounting beam.

The clamp with M12 (M16) fastening head is designed for fastening heavy, steel or cast iron pipes.

Variants with 1/2, 3/4, 1, 5/4 clamping head can also be supplied.

With damping rubber insert.

- **Surface finish:** galvanized steel

## Selected variant

| Product name        | Solid wood sleeve |
|---------------------|-------------------|
| Product code        | 0                 |
| Clamping range (mm) | 244-254           |
| Tape width (mm)     | 40                |
| Thread              | M12,M32           |
